R = Responses

N = Negative responses

% = (N/R) = Percent of responses that are negative

Note - Negative is with respect to the context of the question asked.

■ = Indicates that the negative responses has reached or exceeded the **critical limit** ($\geq 50\%$)

■ = Indicates that the negative responses has reached or exceeded the **warning limit** ($\geq 40\%$)

■ = Indicates that the negative responses is below the **warning limit** ($< 40\%$)
